

## State Mandated Health Report

Eugene Waldorf School abides by all state immunization laws. For students in all Oregon schools, families may choose which immunizations their children receive and when.

These 2019 immunization rates are being posted in compliance with state requirements adopted July 27, 2015. **Exemption rates include not only families that choose to opt out of vaccinations, but also families that had their children immunized later than the state-mandated schedules.** Many EWS families choose to immunize on a later schedule than the state mandate.

### **Immunization numbers and rates for Pre School:**

DTaP, 19 (63%); Varicella, 18 (60%); Polio, 16 (53%); MMR, 18 (60%); Hep B, 16 (57%); Hep A, 16 (53%); Hib, 21 (89%); Rate for all vaccines, 83%.

### **Immunization number and rates for K-8:**

DTap/Tdap, 78 (51%); Varicella, 72 (47%); Polio, 69 (45%); MMR, 79 (51%); Measles, 72 (47%); Hep B, 66 (43%); Hep A, 67 (44%); Rate for all vaccines, 38%; Non-Medical Exemptions, 62%.

Oregon Health Department Oregon K-12 School Vaccination Rates are also posted [here](#).
